

Filename	Description	Duration
DH03-01 - AMB - Rainforest - Afromontane - 1750m - Afternoon - Quiet With Sparse Birdsong	Peaceful quiet afternoon with diffuse birdsong, a mild breeze and very light insect presence, forest sounding almost European-like. Prominent songbird in beginning is White-breasted Nigrita.	04:37
DH03-02 - AMB - Rainforest - Afromontane - 1750m - Dawn - Active Birds - Blue Monkey Alarm Calls	Gentle early morning full of birdsong and wingflutters, nearly no insects. Woodpecker drumming. Blue Monkey alarm calls 5 minutes in. Birds include Montane Oriole, Yellow-rumped and Yellow-throated Tinkerbird, Blue-spotted Wood Dove, Black-billed Turaco.	06:08
DH03-03 - AMB - Rainforest - Afromontane - 1750m - Evening - Very Quiet With Sparse Birds And Crickets 01	Uneventful quiet early evening with generic cricket and insect chirps and fast bird wing flutter. Slurring bird call is African Yellow White-eye, White-tailed Crested-Flycatcher also in the background.	05:07
DH03-04 - AMB - Rainforest - Afromontane - 1750m - Evening - Very Quiet With Sparse Birds And Crickets 02	Uneventful quiet early evening with very sparse, diffuse and distant crickets, insects and birds. Occasional branch and debris drop. Prominent vibrating wing sounds that resemble a call are of African Broadbill displaying.	05:14
DH03-05 - AMB - Rainforest - Afromontane - 1750m - Night - Full Cricket Chorus 01	Night insect chorus of afromontane rainforest, full spectrum, close perspective.	04:35
DH03-06 - AMB - Rainforest - Afromontane - 1750m - Night - Full Cricket Chorus 02	Night insect chorus of afromontane rainforest, full spectrum, diffuse perspective.	05:23
DH03-07 - AMB - Rainforest - Afromontane - 1750m - Night - Very Quiet Pre-Dawn	Very quiet and subdued insect chorus at night in afromontane rainforest, just before dawn, diffuse perspective, light debris, distant Great Blue Turaco calls.	05:05
DH03-08 - AMB - Rainforest - Afromontane - 2000m - Dawn - Close Wistful Bird Whistles - Mildly Piercing Insect Chorus - Active Diffuse Birds	Lovely gentle afromontane rainforest dawn with warm mild breeze, spacious birdsong and thin light piercing insect chorus. Prominent whistles are Mountain Illadopsis in duet. Background calls include Black-and-white-casqued Hornbill, Montane Oriole.	04:49
DH03-09 - AMB - Rainforest - Afromontane - 2000m - Evening - Close Wistful Bird Whistles - Thick Insect Chorus - Active Diffuse Birds	Evening just after dusk. Continuous insect chorus shifts slowly in pitch. Prominent whistles of Waller's Starling. Rhythmic Boehm's Tree Squirrel chatter. Distant regular Great Blue Turaco calls, Blue Monkey. Intermittent frogs, occasional wing flutter.	06:18
DH03-10 - AMB - Rainforest - Afromontane - 2000m - Morning - Lazy Bird Whistles - Distant Tree Fall - Blue Monkey Calls - Thin Insect Chorus	Early morning, light breeze, very thin insect drone. Big tree falling in the distance, brief response by Blue Monkeys. Prominent slow whistle calls come from Grey-headed Bush-Shrike and Mountain Illadopsis. Little Greenbul chattering continuously.	04:17
DH03-11 - AMB - Rainforest - Afromontane - 2000m - Night - Quiet Calm Crickets Trills - Occasional Bat Chirps	Peaceful night insect chorus, intermittent frogs, occasional chirps of bats reach audible spectrum, more in ultrasound. Light debris and distant flow of a stream.	04:59
DH03-12 - AMB - Rainforest - Afromontane - 2300m - Afternoon - Mild Cicadas - Sparse Birds - Distant Chimpanzees	Uneventful afternoon with mild insect drone slowly rising in intensity. Mountain Buzzard calls in beginning. Very far chimpanzees occasionally. Constant Little Greenbul chatter, diffuse birdsong. White-naped Raven calling regularly in last 2 minutes.	06:15
DH03-13 - AMB - Rainforest - Afromontane - 2300m - Afternoon - Piercing Cicadas - Lazy Birds	Uneventful afternoon with piercing insect drone. Continuous calls of Mountain Oriole. Also in the background are Chubb's Cisticola and Slender-billed Greenbul.	04:39
DH03-14 - AMB - Rainforest - Afromontane - 2300m - Afternoon - Quiet Cicadas and Crickets - Diffuse Birds	Very quiet and diffuse afternoon, insects and birds all feel pushed back. Birds include Chubb's Cisticola, Yellow-whiskered Greenbul, Doherty's Bushshrike, Chestnut-throated Apalis, Black-billed Turaco	06:27
DH03-15 - AMB - Rainforest - Afromontane - 2300m - Dawn - Active Birds	Lovely dawn in jungle-clad valley. Active birds, light rhythmic crickets, drips. Birds incl Mountain Masked, Black-throated & Ruwenzori Apalis, Mountain Oriole, Grauer's Warbler, Grey-backed Camaroptera, Collared Sunbird. Loud Great Blue Turaco rattles.	05:35
DH03-16 - AMB - Rainforest - Afromontane - 2300m - Evening - Active Birds Crickets Cicadas - Dripping Foliage After Rain	Evening falls in afromontane jungle-clad valley as a Great Blue Turaco continuously produces rattling calls. Light rainfall and very thin insect drone. Background also has Olive Pigeon, Chubb's Cisticola, Dark-capped Bulbul.	06:33
DH03-17 - AMB - Rainforest - Afromontane - 2300m - Night - Calm Crickets - Dripping Foliage After Rain	Calm night with rhythmic insect chorus. Occasional bats flying past, wings and echolocation chirps. Continuous debris and dripping foliage after rain.	03:53
DH03-18 - AMB - Rainforest - Afromontane - 2350m - Afternoon - Modulating Insect Chorus - Diffuse Montane Oriole Calls	Afternoon with modulating high pitched piercing insect chorus. Diffuse background birds with continuous semi-distant Montane Oriole calls.	05:13
DH03-19 - AMB - Rainforest - Afromontane - 2350m - Afternoon - Piercing Insect Chorus - Prominent Montane Oriole Calls	Afternoon with piercing high pitched insect chorus. Montane Oriole calls prominently present throughout. Occasional wing flutter, distant thunder roll.	04:11
DH03-20 - AMB - Rainforest - Afromontane Swamp - 2000m - Afternoon - Mild Insect Chorus - Diffuse Birds - Subdued Frogs	Afternoon in high elevation swamp surrounded by jungle-clad mountains producing diffuse birdsong. Close calm occasional frog croaks, continuous insect chorus.	06:27
DH03-21 - AMB - Rainforest - Afromontane Swamp - 2000m - Evening - Calm Prominent Insect Chorus - Occasional Frogs	Evening (after dusk) in high elevation swamp surrounded by jungle-clad mountains. Continuous multilayered insect chorus that subtly shifts in tone, interspersed by regular frog croaks and bat chirps.	05:14
DH03-22 - AMB - Rainforest - Afromontane Swamp - 2000m - Evening - Thick Insect Chorus - Sparse Birds - Occasional Frogs	Evening (around dusk) in high elevation swamp surrounded by jungle-clad mountains producing diffuse birdsong. Strong insect chorus.	05:59
DH03-23 - AMB - Rainforest - Afromontane Swamp - 2000m - Night - Antelope Alarm Barks - Subdued Frog and Insect Chorus	Night in high elevation swamp surrounded by jungle-clad mountains. Reverberant gruff alarm or rutting barks of antelope, probably waterbuck, throughout. Continuous, subdued frog croaks and quiet insect chorus. Regular bat chirps, audible and in ultrasound.	06:31
DH03-24 - AMB - Rainforest - Afromontane Swamp - 2350m - Evening - Close Blue Monkey Alarm Calls - Mild Insect Chorus - Diffuse Forest	Evening (around dusk) by small swamp in mountainous jungle. Blue Monkey chirps and loud alarm calls, movement in trees. Regular wing flutter, woodpecker drum. Debris and branch drops. Mildly pulsating insect chorus. Very occasional frog croak.	04:53
DH03-25 - AMB - Rainforest - Afromontane Swamp - 2350m - Evening - Gentle Insect Chorus - Occasional Frogs	Evening (after dusk) by small swamp in mountainous jungle. Thick, modulating, continuous insect chorus. Squawking birds, irregular frog croaks.	05:09
DH03-26 - AMB - Rainforest - Afromontane Swamp - 2350m - Morning - Calm Bird Whistles - Distant Woodpecker - Colobus Monkey Croaks - Light Insect Chorus	Beautiful and calm, melodic morning. Black & White Colobus monkey croaks. Mountain Illadopsis song, close Black-billed Turaco at 6m. Wing flutter, woodpecker. Light to no insect drone. Other birds incl Mountain-masked & Ruwenzori Apalis, Ruwenzori Batis.	07:05
DH03-27 - AMB - Rainforest - Afromontane Swamp - 2350m - Night - Active Bat Chirps - Reverberant Crane Calls - Occasional Frogs - Dripping Foliage	Quiet night by small swamp in mountainous jungle. Regular dripping & debris. Very active bat chirps, some wings. Extremely light to no insect drone. Occasional frogs. Reverberant booming, honking calls by Grey Crowned Crane. A few African Wood Owl hoots.	04:48
DH03-28 - AMB - Rainforest - Medium Altitude - 900m - Afternoon - Lazy Diffuse Birdsong - Rasping Insect Chorus	Lazy afternoon in secondary, medium altitude forest dominated by a slow, rhythmic, rasping insect chorus and calls by Waller's Starling, Tambourine Dove, Red-chested Cuckoo, Red-rumped and Yellow-rumped Tinkerbird.	04:43
DH03-29 - AMB - Rainforest - Medium Altitude - 900m - Night - Rolling Thunders - Calm Insect Chorus - Diffuse Fruit Bat Calls	Thunders rolling at night at the edge of secondary medium altitude forest. Very calm insect chorus. Distant, diffuse low pitched rhythmic calls are fruit bats.	08:15
DH03-30 - AMB - Rainforest - Montane-Lowland Transitional - 1100m - Night - Tree Hyrax Screams	Night in primary rainforest with continuous screams by numerous Western Tree Hyrax and some Verreaux's Eagle-Owl hoots. Fairly thick insect chorus.	05:27
DH03-31 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Afternoon - Distant Thunders - Calm Crickets - Sparse Birds	Calm afternoon in primary rainforest at medium elevation. Honking birds in beginning are Black-and-white-casqued Hornbill. Continuous thunder rolls and rumble. Diffuse insect chorus and background birdsong.	04:50
DH03-32 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Dawn - Very Piercing Cicadas - Colobus Monkey Calls	Dawn rises in primary rainforest. Piercing and trilling cicada and insect chorus modulates in intensity throughout. Black and White Colobus croaks in tandem, nonstop twinkling of tree frogs. Sparse song of Red-chested Cuckoo and Brown Illadopsis ensues.	08:28
DH03-33 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Morning - Above Canopy - Active Birds - Screeching Baboons - Distant Chimpanzees	Very busy dawn in canopy above primary rainforest. Baboon rustle & screams, chimp hoots. Birds incl African Emerald Cuckoo, Grosbeak Weaver, Yellow-billed Barbet, Olive-bellied Sunbird, White-breasted Nigrita, Red-faced Cisticola, Yellow-r. Tinkerbird.	04:56
DH03-34 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Morning - Chimpanzees Waking Up In Rain - Perspective A - In Sync With B	Chimpanzee families waking up in the rain in a primary rainforest. Lots of hoots, screams and other vocalisations. Perspective A, with prominent song of Western Black-headed Oriole. In sync with DH03-35.	08:07
DH03-35 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Morning - Chimpanzees Waking Up In Rain - Perspective B - In Sync With A	Chimpanzee families waking up in the rain in a primary rainforest. Lots of hoots, screams and other vocalisations. Perspective B, also with Mangabey monkey hoots and Scaly-breasted Illadopsis song. In sync with DH03-34.	08:07
DH03-36 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Morning - Red-tailed Monkeys Calling and Moving In Trees	A troop of Red-tailed Monkeys in trees of primary rainforest in the morning. Calls including chirps, trills, croaks, screams. A few baboon barks. Lazy insect chorus, some wing flaps, birds incl Western Nicator, Chestnut Wattle-eye, Buff-throated Apalis.	06:57
DH03-37 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Night - Baboon Barks - Colobus Monkey Croaks - Distant Chimpanzees	Deep Olive Baboon alarm barks precede a rolling, croaking Black and White Colobus monkey chorus at night in a primary, medium altitude rainforest. Regular insect chirps and debris dripping from earlier rain. Also some distant chimpanzee hoots.	06:45
DH03-38 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Night - Colobus Monkey Chorus - Close and Distant	A spooky night-time chorus of Black and White Colobus monkeys comes rolling in all its croaking glory, at both distant and close perspectives. Regular branch and debris drops, very distant baboon barks. Mild insect chorus and continuous tree frog twinkles.	05:19
DH03-39 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Night - Colobus Monkey Chorus - Dwarf Bushbaby Trills - Close and Distant	Trilling, twangy pitch shifting calls of Dwarf Bushbaby precede a spooky croaking chorus of Black and White Colobus monkeys at both close and distant perspectives. A very still night with subdued insects, tree frog twinkles, bat chirps and foliage drops.	08:01
DH03-40 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Night - Delicate Calm Twinkling Tree Frogs	A very delicate and calm night, the early hours just before dawn, in primary rainforest at medium altitude. Prominent twinkling of tree frogs against a backdrop of subdued insect chorus and foliage debris drops. A single African Wood Owl hoot.	05:03
DH03-41 - AMB - Rainforest - Montane-Lowland Transitional - 1300m - Night - Rolling Thunders - Close Up Chimp Group Vocalisations - Incoming Rain	Chimpanzees in nests at night with an incoming, heavy tropical rain downpour. Continuous ominous thunder rolls elicit a short chimp vocalisation, with panicked screams and hoots at 2:40 (also in DH03-60) before the storm comes in.	07:15

DH03-42 - AMB - Rainforest - Tropical Lowland - 700m - Afternoon - Diffuse Calm Birdsong - Hornbill Close Flyby and Trumpeting Calls	Slow afternoon in tropical lowland rainforest. Close hoots of Tambourine Dove, honks and trumpeting with flanging wing flaps by Piping Hornbill. Very light insect drone and breeze. Other birdsong includes Yellow-throated Nicator, Red-tailed Ant Thrush.	06:05
DH03-43 - AMB - Rainforest - Tropical Lowland - 700m - Afternoon - Rasping Insect Chorus - Active Birds	Afternoon in tropical lowland rainforest busy with birds and pulsing rasping insect chorus. Woodpecker drumming. Birds include White-spotted Flufftail, Least Honeyguide, Yellow-throated Nicator, Red-tailed Ant Thrush, Tambourine Dove.	05:36
DH03-44 - AMB - Rainforest - Tropical Lowland - 700m - Afternoon - Rasping Insect Chorus - Diffuse Active Birds	Afternoon in tropical lowland rainforest with busy but mostly diffuse, distant birdsong and rasping, rhythmic insect chorus. Birds include Yellow-billed Barbet, Little Greenbul, Tambourine Dove, Yellow-rumped Tinkerbird.	04:18
DH03-45 - AMB - Rainforest - Tropical Lowland - 700m - Dawn - Lazy Whistling and Diffuse Birds - Light Insect Chorus - Occasional Mangabey Calls	Lovely lazy jungle dawn with prominent whistling songs of Scaly-breasted & Brown Illadopsis. Red-legged Sun Squirrel chattering. Regular wingflutter, gentle insect chorus, some foliage debris. Mangabey occasionally hoot in background.	06:28
DH03-46 - AMB - Rainforest - Tropical Lowland - 700m - Dawn - Lazy Whistling and Twinkling Birds - Medium Insect Chorus	Lovely lazy jungle dawn with prominent whistling song of Brown Illadopsis. Mild but present, pulsating insect chorus. Continuous diffuse hoots by Senegal Coucal, some rattling calls by Great Blue Turaco. Subdued squawks of Piping Hornbill towards end.	06:37
DH03-47 - AMB - Rainforest - Tropical Lowland - 700m - Evening - Blue Monkey Alarm Calls - Thick Insect Chorus	Blue Monkeys chirping and sounding alarm calls continuously at night, amidst a fairly thick insect chorus and occasional water plops and splashes from small pond. Distant Old World fruit bat calls and occasional African Wood Owl hoot.	05:30
DH03-48 - AMB - Rainforest - Tropical Lowland - 700m - Evening - Mangabey Monkeys Calling From and Moving Through Trees	Early evening next to a forest stream has Red-tailed Monkeys call before a Grey-cheeked Mangabey monkey moves through the canopy, doing its hooting and warbling calls regularly. Light, fluttering insect chorus. Great Blue Turaco.	05:23
DH03-49 - AMB - Rainforest - Tropical Lowland - 700m - Evening - Thick Insect Chorus - Honking Bird Calls	A tropical lowland rainforest evening just after dusk featuring a thick, pulsating and fluttering insect chorus together with near continuous unidentified honking calls.	05:44
DH03-50 - AMB - Rainforest - Tropical Lowland - 700m - Evening - Various Types of Monkeys Calling - Mild Insect Chorus	A busy evening full of primates. Moans, squeaks, warbling chatters of Dent's Mona monkeys in the canopy. Deep hoots by De Brazza's monkey. Blue Monkey alarm poks, Red-tailed monkey squawks. Birds incl Red-tailed Bristlebill, African Paradise Flycatcher.	06:16
DH03-51 - AMB - Rainforest - Tropical Lowland - 700m - Morning - Red-tailed Monkey Calls and Tree Movement - Hooting and Whistling Birds - Mild Insect Chorus	A troop of Red-tailed Monkeys chirping and chattering in the trees during a full-featured morning in tropical lowland rainforest. Yellow-billed Barbet hoots continuously. Birds also include Red-tailed Bristlebill, Red-tailed Greenbul, Tambourine Dove.	05:00
DH03-52 - AMB - Rainforest - Tropical Lowland - 700m - Morning - Slow Thunder Rolls - Mild Thick Insect Chorus - Sparse Diffuse Bird Calls	A late, lazy tropical lowland rainforest morning with birdsong sparse and pushed back. Continuous insect trill, very occasional thunder roll. Birds include a variety of barbets, doves, tinkerbirds and greenbuls and Senegal Coucal.	06:31
DH03-53 - AMB - Rainforest - Tropical Lowland - 700m - Morning - Various Types of Monkeys Calling - Calm Birdsong - Light Insect Chorus 01	An active yet calm morning full of primates and birdsong next to a rainforest pond. Close squeals and moans by Dent's Mona monkey, rustling movement in the canopy. Various Grey-cheeked Mangabey hoots and warbles.	04:32
DH03-54 - AMB - Rainforest - Tropical Lowland - 700m - Morning - Various Types of Monkeys Calling - Calm Birdsong - Light Insect Chorus 02	Very active morning full of primates, birdsong and canopy movement next to a rainforest pond. Deep hoots by DeBrazza's monkey. Squeals, moans & cough-vocalisations by Dent's Mona monkey, debris of them moving. Splashes and wings of Kingfisher fishing.	06:18
DH03-55 - AMB - Rainforest - Tropical Lowland - 700m - Night - Full and Mildly Piercing Insect Chorus	Quite a generic, calm tropical lowland rainforest night with continuous, full and mildly piercing insect chorus that slowly modulates. Tree frog pinging sounds.	04:06
DH03-56 - AMB - Rainforest - Tropical Lowland - 700m - Night - Full Insect Chorus - Wood Owl Hoots - Galago Calls	Calm, rhythmic, layered and modulating insect chorus at night in tropical lowland rainforest. Various hoots and howls by African Wood Owl and distant Spotted Eagle-Owl. Squeaky, chattering calls by what is likely a type of galago, but unidentified.	05:03
DH03-57 - Ape - Chimpanzee - Vocalisation - Adult Male - Close - Brief Subdued Hoots - Distant Chimp Responds	Chimpanzee, adult male, close. Short subdued hooting vocalisation, response by distant chimp. Some branch snapping and foliage sounds of it moving through bush.	00:06
DH03-58 - Ape - Chimpanzee - Vocalisation - Adult Male - Close - Outburst - Hitting Tree Trunk - Distant Groups Respond	Chimpanzee, adult male, close. High pitched quiet vocalisations erupt in powerful deep hooting grunts and excited shouts as he moves off and hits a tree trunk with force. Distant chimpanzee groups respond in tandem.	00:52
DH03-59 - Ape - Chimpanzee - Vocalisation - Adult Male - Close - Outburst - Hitting Tree Trunk	Chimpanzee, adult male, close. High pitched quiet vocalisations erupt in powerful hooting grunts, growls and excited pants as he moves off and hits a tree trunk with force.	00:16
DH03-60 - Ape - Chimpanzee - Vocalisation - Group - Close and Far - Outburst Before Rain	Chimpanzee, group, close and far. Excited fast screams and pant hoots combined with muted deep grunting pants in anticipation of an incoming heavy rainstorm. Snippet taken out of DH03-41.	00:16
DH03-61 - Ape - Chimpanzee - Vocalisation - Group - Close and Far - Pant Hoots and Screams Outburst	Chimpanzee, group, close and far. Numerous shouts, pant-hoots and bark-like screams.	00:44
DH03-62 - Ape - Chimpanzee - Vocalisation - Group - Close and Far - Pant Hoots Outburst	Chimpanzee, group, close and far. Two chimps excitedly pant-hoot, scream and shout as they mess about in the bush. Other chimps further away respond.	00:32
DH03-63 - Ape - Chimpanzee - Vocalisation - Group - Close and Far - Pant Hoots	Chimpanzee, group, close and far. Fast panting grunting hoots and quieter squeals by close chimpanzees meets excited pant-hoot response by a chimpanzee group further away.	00:22
DH03-64 - Ape - Chimpanzee - Vocalisation - Group - Subdued Calm Group Hoots	Chimpanzee, group, few meters distance. Quiet, subdued, calm hoots and pants by a small group. Some bush movement.	00:27
DH03-65 - Ape - Chimpanzee - Vocalisation - Group and Young - Young Chimp Screams and Numerous Group Outbursts	Chimpanzee, group, close and far. Numerous screams, shouts, grunts, squeals and pant-hoots by chimps both young and adult. Some light movement through bush.	00:59
DH03-66 - Ape - Mountain Gorilla - Vocalisation - Big male silverback feeding - Smacking lips - Snaps twigs - Communication grunt	Mountain Gorilla, silverback. Brief belch vocalisation grunts, used as contact calls and to express contentment. Feeding on branches and leaves, smacking lips.	00:16
DH03-67 - Ape - Mountain Gorilla - Vocalisation - Big male silverbacks short communication grunts to each other - Chewing	Mountain Gorilla, two silverbacks. Two brief belch vocalisation grunts, used as contact calls and to express contentment. Brief chewing sound.	00:04
DH03-68 - Ape - Mountain Gorilla - Vocalisation - Big male silverbacks short communication grunts to each other	Mountain Gorilla, two silverbacks. Two brief belch vocalisation grunts, used as contact calls and to express contentment. Brief chewing sound.	00:04
DH03-69 - Ape - Mountain Gorilla - Vocalisation - Silverback jumps into bush - Females quietly respond with hoots	Mountain Gorilla, silverback and two females. Silverback jumps into bush, females quietly respond with hoots.	00:06
